EVENT PROFILE

CEMS-Global USA's International 'Dye+Chem series of Exhibitions has reached its accession in popularity in South & South-East Asia as the only kind of series held in the sub-continent. Being organized for more than a decade in Bangladesh, India & Sri Lanka; 'CEMS-Global' is pleased to take this leading Series of Exhibition to Brazil and present the Brazilian edition - '44th Dye+Chem Brazil 2024 International Expo' to be held on similar successful model concurrently with '5th Brazil Apparel Sourcing Show 2024', 'Textech Brazil' and '5th Brazil Int'l Yarn & Fabric Sourcing Show 2024', focused to the colossal manufacturing Industry of Brazil.

Brazil – is one of the 'BRICS' economies and recently overtook the UK as the world's sixth-largest economy. Its economy is the largest of the Latin American nations and the second largest in the western hemisphere. Brazil is one of the fastest-growing major economies in the world. In future decades, Brazil is expected to become one of the five largest economies in the world.

Brazil's place as a leader among the world's emerging economies was first brought to widespread prominence with its inclusion as one of the BRIC countries – the tag is given a decade ago to Brazil, Russia, India, and China because of their robust economic growth and tremendous market opportunity.

In recent years, Brazil has fulfilled its promise and remains one of the world's top prospects for business development and investment. Brazil continues to enjoy steady economic growth and has the second biggest industrial sector in the Americas. The country's annual per capita GDP is US\$ 12,000, almost doubled in the past two decades. Manufacturing sector dominates the Brazilian economy, contributing 67% and 30% of GDP, respectively. Brazil has steered a careful path to reach a position of global economic and industrial power. All these facts made CEMS-Global take its popular 'Dye+Chem Series of Exhibition' to Brazil.

'44th Dye+Chem Brazil 2024 International Expo' hence focuses on the manufacturing sector of this potential Nation. 'Dye+Chem' will be the most prestigious and exclusive International Exhibition devoted to focus on all kinds of Dyes and Fine & Specialty Chemicals for the colossal Brazilian manufacturing Industry and will be a one-stop single platform to showcase from home and abroad the latest developments and emerging technology for the Process Industry.

The '44th Dye+Chem Brazil 2024' will be the biggest meeting place ever held in Brazil for Buyers and Suppliers of Dyestuffs and Fine & Specialty Chemicals and will also provide an interactive platform for Exhibitors to generate business through displays / direct interaction and will enhance the synergy effect and attract top-level professionals from the industry thus improving technology, focus and visitors of the expo.

IN FIGURES?

Brazil has emerged as one of the major textile clothing products exporting nations. The demand for textile chemicals (dyes and auxiliaries) in the country has increased sharply in the recent fiscal year 2021. Brazil ranks in the top 5 globally in the production of textiles, apparel production, denim, and knitwear. Their fashion week is also one of the five largest in the world today. Brazilian

chemical imports have increased by more than 1,200%. Both Brazilian importers and distributors are continually seeking new suppliers. There is no doubt that investing here will have a great chance of benefits. Furthermore, the population of Brazil is rising fast at a steady-state, which creates a large impact on the Demand.
